

Exercise:

Student must create a web-page about an article for a magazine.

Requirement:

1. Header that contain the title of the article.
2. The article must contain three columns (Hint: use `div` and change the display of the tag).
3. The article must have an image and it must be inside the first column `div`.
4. Use `span` element to change the style of three words of your choice. (color, font-size, font-weight).
5. The page should be will designed.

Extra challenge:

1. Make the text in the first column wrap around the image.
2. Make all text start at the same level.
