Exercise :

Create a file and name it `script.js`, that will print the mark of a student based on the score.

Requirement:

1. If the mark is greater than or equal `90` print `excellent`.
2. If the mark is greater than or equal `80` print `very good`.
3. If the mark is greater than or equal `70` print `good`.
4. If the mark is greater than or equal `50` print `average`.
5. If the mark is greater than or equal `10` print `failed`.
6. If the mark is less than `10` print `god help you`.
